Highly skilled and motivated MEAN/MERN Stack Developer with 3+ years of experience in developing and deploying web applications. Strong knowledge of **MongoDB, Express.js, Angular, React, and Node.js**. Proven ability to work in a fast-paced environment and deliver high-quality results on time. Seeking a challenging role in a dynamic company where I can utilize my skills and experience to contribute to the growth of the organization.

WORK EXPERIENCE

Software Engineer (MEAN/MERN) March 2022 – Present Emblem Technologies Lahore, PK

- Developed and maintained a web-based application using Angular, Node.js, and MongoDB, resulting in improved user experience and increased performance.
- Designed and implemented RESTful APIs to support multiple applications, using Node.js and Express.
- Built a real-time chat application using WebSockets and Node.js, increasing communication and collaboration among team members.
- Collaborated with UX/UI designers to build responsive and intuitive user interfaces, using CSS and HTML.
- Followed Agile methodologies, including Scrum and Kanban, to manage projects and deliver high-quality work on time and within budget.
- Contributed to the development of an e-commerce platform using React, Node.js, and MongoDB, resulting in increased sales and customer satisfaction.
- Built and maintained RESTful APIs, using Express and Node.js, to support multiple applications and services.
- Utilized Firebase to provide real-time data storage and synchronization for a mobile application.
- Built a dynamic dashboard using D3.js and React, providing real-time analytics and reporting for business stakeholders.
- Collaborated with cross-functional teams, including designers, project managers, and QA engineers, to deliver high-quality, user-friendly web applications.

Frontend Developer(Angular/React) October 2020 – Feb 2022 Bester Capital Media, Lahore, PK

- Developed and maintained web applications using Angular and React.
- Collaborated with designers and back-end developers to create responsive and user-friendly web experiences.
- Implemented new features and functionality to improve user engagement and conversion rates.
- Utilized JavaScript, HTML, and CSS to create visually appealing and functional web pages.
- Assisted senior developers in the design and implementation of web applications.
- Worked with designers to create responsive and user-friendly web experiences.
- Developed web pages and components using HTML, CSS, and JavaScript.
- Improved website performance by optimizing images and implementing caching techniques.
